SUBJECT: S. J. Res. 77

I would suggest that if the DCI approves this redraft that we either send the letter to Myer Feldman or take it to him. In either event we should explain that this is an attempt at meeting their views that this should be a negative report and at the same time reconciling it with the Director's statements to Fulbright. We might send Feldman an extract of the exchange. We might also indicate to Feldman the strong position which USIA is taking, copy of which we have, opposing joining information and intelligence activities. If Feldman approves for the White House, I am sure we can get a quick clearance from the Bureau of the Budget through Jim Hyde. Also, as a matter of courtesy, Norman Paul in Defense and McAfee in State, should be notified.
